

THE BUILDER & THE SEVEN KEY CHOICES TO SUCCESS

*The Builder is the student who has decided to build a better life by making the right choices. The Builder understands the **Law of Reality**; that life is difficult and often unfair. He refuses to play the role of the victim, but builds his life even under challenging circumstances. The Builder develops good relationships with the leaders in his four main social institutions, his Family, his Faith, his Community, and his School. These relationships will result in a sense of belonging and identification which is necessary for success in life.*
