

Customized, Contracted Services

Purpose: Stanislaus County Office of Education employs consultants and directors with expertise in a variety of areas. Frequently, school or district personnel develop strong working relationships with staff through the course of SB 472 or AB 430 training or through work associated with School and District Program Improvement efforts. Schools or districts may wish to contract for additional, customized services.

Targeted Audience: Local schools or districts wanting to utilize Stanislaus County Office of Education services and personnel.

Format: The services provided by the Stanislaus County Office of Education would be negotiated between district and possibly site representatives and Stanislaus County Office Directors. The services would be detailed in an MOU and cost would be negotiated during the discussion regarding the scope of work.

Cost: Costs will vary depending on the nature and duration of the services provided and the number of County Office employees involved. The base rate will be calculated at \$500 per day per county office employee for schools and districts within the county.

Additional Notes:

Contractual work is dependent on County Office staff capacity and availability.
