

## **Questions from Pre K Now Satellite Conference October 17, 2007**

- Is the focus on full day Pre-K in New York?
- What role do businesses play in the funding for fully day programs?
- Will the Pre- K initiative be open to all preschool programs or limited to publically funded programs, such as head Start or State Preschool?
- You pointed out that the public school system as PreK both have the same goals for young children but use different terminology. Can you share an example of this?
- What was the funding source for the New York expansion? Was it a reallocation of taxes or a new tax?
- Is an advocacy packet available to us to use at local level that we can use as a template?
- How have programs addressed the need for a strong teacher infrastructure?
  - Numbers of needed teachers
  - Quality of teaching staff
  - adequate teacher compensation
- Are there limits regarding the hosting candidate forums for public school agencies or non profit groups?
