SCOE Special Education provides direct and indirect support services for students with special needs and their families throughout the county, in school settings or in the home. The SCOE special education division provides specialized services to students from birth to age 22, supporting district run programs, operating SCOE programs on district campuses and within our own two schools on Stonum Road in Ceres.

The division has grown significantly in recent years, serving students for Stanislaus county, with the support of itinerant specialists and classroom based professionals. The division now has 535 employees working in different capacities within the division, making a difference in the lives of students, families, and communities.
