Parents

5 Online Safety Tips

1. Keep devices in shared family spaces (i.e., living room or kitchen).

2. Set a daily time limit for tech use. Incorporate other offline activities. (i.e., art, board games, outside activities, etc.)

3. Monitor devices and ensure your children are responsible. Use parental controls to keep them safe.

4. Keep devices safe and secure - ensure the device and applications are up-to-date and protected with anti-virus software.

5. If working remotely, lock the screen/device when unattended to prevent incidents to the systems/files.

STAY HOME STOP COVID-19
