

Jane Johnston Civility Award

County-level recognition only

Jane Johnston helped launch the countywide **Choose Civility** initiative in 2010. She advocated for and co-chaired the **Employees Making a Difference Program** and the **Stanislaus County Teachers of the Year Program**. Because Jane modeled civility at work, at home, and in the community, the Education Foundation of Stanislaus County created this award in her memory. In April 2012, Jane unexpectedly passed away and will be forever in our hearts.

Select four of the twelve principles of civility your nominee most embodies. Describe how he/she lives those principles by providing details and examples.
