

August 2022

The Stanislaus County Office of Education Educational Options Division school sites support the safety and well-being of all students and staff. We believe that each person must decide what is best to maintain their own personal health and well-being.

In order to support all staff and students in maintaining personal safety, in alignment with the CDPH recommendations, Ed Options schools will:

- Provide masks upon request and respect the right of choice in wearing masks while on campus
- Provide Covid tests upon request
- Maintain school site cleanliness following CDPH guidelines
