ALL for  
for & ALL

*Use Your Inside Voices!*

*If you SEE SOMETHING... SAY SOMETHING! Now more than ever young people have the power to change the world - and it's literally at their fingertips. Unlike any other time, young people have a platform to inject real change in their environments. Though advances in technology have made life more convenient for some, social media and reality programming have made mindless behavior, drug abuse, and bullying widely acceptable – making it hard for others. Shaun recounts how “finding his voice” gave him the confidence to stand up for himself and many others. His presentations equip young people with the tools necessary for your students to become agents of change in their homes, schools, and communities.*

*A great event to meet  
Student Engagement  
& School Climate LCAP Goals!*

*Friend to Friend 2018*

### High School General Session: “#ICANHELP Delete Negativity”

*This engaging session uses real life examples of social media posts, discussing digital footprint, positive digital presence, what liking a post means, and other proper/positive uses of social media. It will give you the tools to stand up for your peers online and presents specific ideas that you can use on campus to improve the school climate. **WARNING: This session contains graphic content:** Nudes/sexting and some more mature content is addressed through age appropriate stories and examples.*

### Middle School General Session: “#ICANHELP Delete Negativity”

*This engaging session uses real life examples of social media posts, discussing digital footprint, positive digital presence, what liking a post means, and other proper/positive uses of social media. It will give you the tools to stand up for your peers online and presents specific ideas that you can use on campus to improve the school climate. **WARNING: This session contains graphic content:** Nudes/sexting and some more mature content is addressed through age appropriate stories and examples.*

## Breakout Sessions Middle school students will attend from 10:00 - 11:10 a.m. and High school students from 12:00 - 1:10 p.m.

### “Foreign Exchange: Conversations with Student Refugees and Asylum Seekers,” by Davis High School’s Language Institute

*As if the typical challenges that come with the territory of being a teen aren’t hard enough, can you imagine going to school in a foreign country because war tore you away from your home, or you were no longer safe there because you were being persecuted as a result of your race or nationality? In this session, you will hear first-hand experiences of student refugees and asylum seekers who have been forced to overcome these seemingly insurmountable challenges, and learn how you can support students on your own school campus who find themselves on a similar journey.*

### “Resilience Squad,” by Kaiser Permanente Educational Theatre

*Feeling stressed with everything you have on your plate between what’s going on at home, at school, and in the world around you? The Resilience Squad is here! This interactive session will use the power of art and theatre to explore some cool new ways to use our voices and minds to be more aware, strong and in control of our lives!*

### “What Do You Consider Lethal?,” by Impact Teen Drivers

*“What Do You Consider Lethal?” is a high energy, evidence-based program where YOU will learn how to stop the #1 killer of young people in America. Car crashes take more teens lives every year than any other cause--and they are 100% PREVENTABLE! Most young people understand the dangers of alcohol and drug-use behind the wheel, but not everyone gets that everyday things like texting, social media apps, eating behind the wheel, and how best friends can become lethal. Join Impact Teen Drivers to learn about staying safe and making good decisions. We will encourage you to PARTICIPATE throughout the presentation and EMPOWER you to make safer choices in the car- whether you are a driver or passenger.*

### “Self-Confidence ,” by Hughson High School’s Life of a Husky Leadership Academy Students

*This presentation will help you learn how to trust your abilities and boost confidence through simple, everyday steps. Some of the topics we will be covering include grooming yourself, thinking positively, avoiding comparison, serving others, and making effective goals. Once you learn how to apply these principles, you will be set to lead a successful, happy, fulfilled life.*
