MEMORY BOOKS: SAVING MEMORIES FOR YOUTH IN CARE

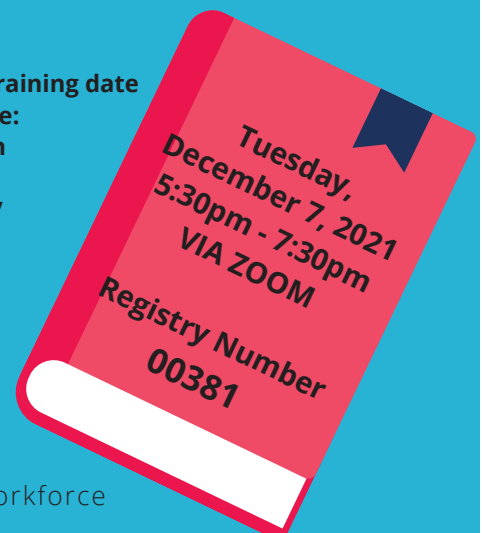

This training and discussion promotes idea generation for caregivers, educators, and support professionals in the domain of documenting and saving memories. The adults in the lives of young foster children have a unique opportunity to stamp the moments into history through photos, journals, and keepsakes. Through this visual presentation and feedback from the audience, participants gain energizing ideas for providing positive memories for foster youth. This training addresses Trauma Informed Care pillars with a specific focus on Safety and Connections (Bath, 2008).
