Unpack Universal Design for Learning (UDL) alongside the Arts Integration. Did you know the California Arts Standards outline the usage of UDL in Arts learning? This workshop focuses on how a model for Arts Integration can be utilized alongside UDL for equitable and accessible arts learning experiences for all students. This session provides time for some hands-on Arts learning too! The goal is for attendees to leave feeling they know how to use UDL and Arts Integration to foster equitable and accessible student learning.
